Full Stack Developer Job Programme

Build Your Future – We'll Help You Code It

Qualification:

Gain industry-leading, internationally recognised, UK-accredited qualifications

Completion Time

8-10 weeks

If you are studying 2 hours a day

Total access period

12 Months

A career in Full Stack Development is about building solutions – your future should be one of them. If you're ready to turn your passion for technology into a profession, we're here to help make it happen.

The ITOL Recruit Full Stack Developer Job Programme is built to get you trained, certified, and hired. You'll develop practical front-end and back-end development skills, build real-world projects, work with databases, gain experience with cloud technologies, and receive personalised recruitment support to help secure your first role in tech.

The outcome is clear: complete the programme, follow the process, and land a job – or we'll refund your investment.

Let's get started.

What Do We Provide?

Every part of the programme is designed to prepare you for the demands of a Full Stack Developer role and help you secure employment.

- Practical, Real-World Development Projects
- 30+ Hands-On Mini Projects
- Interactive Learning Tools like GitHub
- AI Tutor Bot
- Qualified Human Mentor & Tutor
- Industry-Aligned Development Skills
- Portfolio-Ready Project Work

Why Choose a Career in Full Stack Development:

Full Stack Development sits at the centre of today's digital economy, with businesses constantly seeking developers who can build, manage, and optimise modern web applications. From front-end interfaces to back-end functionality, databases, and cloud technologies, Full Stack Developers play a critical role in shaping digital experiences.

- **High Demand** – Businesses across every sector rely on web applications and digital platforms, making Full Stack Developers highly sought after across the tech industry.
- **Competitive Salaries** – Full Stack Development roles offer strong earning potential, with junior developers often progressing quickly into higher-paying specialist and software engineering positions.
- **Diverse Career Paths** – Full Stack Development opens opportunities across front-end development, back-end development, software engineering, cloud development, application support, and web application development across multiple industries.
- **Global Opportunities** – Development technologies are used worldwide, creating opportunities for remote work, freelancing, and international career progression within the global tech industry.
- The average income for a Full Stack Developer stands at **£32.5K – £52.5K**.

How You'll Learn

- **Project-Based Training** – Work on real-world development challenges, interactive exercises, and 30+ hands-on mini-projects designed to strengthen your front-end, back-end, and full stack development skills.
- **Practical Application** – Follow guided walkthroughs and complete practical scenarios that reflect real Full Stack Developer workflows, helping you build confidence with modern development technologies and modern development environments.
- **Expert Support** – Learn from experienced tutors who break down technical concepts, provide personalised feedback, and support your development throughout the programme.

Every project you complete contributes toward your portfolio, helping demonstrate your practical skills to employers, and with our job guarantee, you have a clear pathway into employment.

Your **Pathway** to Success

Successful Full Stack Developers rely on structure, problem-solving, and practical experience – and so should your career journey. This programme follows a clear, step-by-step process to help you build the right skills, gain hands-on experience with expert guidance, and secure a role in tech.

1

TALK TO A CAREER ADVISOR

Not sure where to start? Our career advisors help you understand the programme, explore options, and align your training with your career goals.

2

COMPLETE THE TRAINING

Learn the skills employers look for, pass the assessments, and gain hands-on experience.

3

WORK WITH A RECRUITMENT ADVISOR

Get personalised support to refine your CV, optimise your LinkedIn profile and prepare for interviews.

4

SECURE THE JOB

With tailored career support, you'll be ready to step into your new role.

Where Could This Take You?

A career in Full Stack Development offers stability, growth, and strong earning potential. Here's where your journey could lead:

WEB DEVELOPER

£27,5K – £32,5K

Build and maintain responsive websites, ensuring smooth functionality, user experience, and modern front-end design.

BACK-END DEVELOPER

£35K – £55K

Develop the core systems and databases that power applications, focusing on performance, scalability, and application functionality.

FULL-STACK DEVELOPER

£40K – £65K

Work across both front-end and back-end development, building complete web applications from user interfaces to server-side logic and cloud deployment.

RECRUITMENT

You've built the skills, completed the projects, and earned your qualifications. Now it's time to secure the role.

That's where we come in.

Your **Job, Guaranteed** or Your Money Back

We stand by our training. Follow the process, complete the programme, and secure a role, or you get your money back. Our job guarantee includes:

- Personalised career coaching tailored to your job search.
- An optimised CV and LinkedIn profile to attract employers.
- Comprehensive interview preparation so you feel confident in every opportunity

The Process

Preparation

We know what hiring managers ask because we've helped thousands of candidates through this process. Our recruitment advisors offer one-to-one interview prep sessions tailored to the role and company you're interviewing for, ensuring you're fully prepared for the questions and assessments.

CV & LinkedIn Overhaul

Your CV and LinkedIn profile are your tickets to getting noticed. Our team works with you to sharpen them so you can stand out in a competitive market.

Mock Interviews

Confidence comes with practice. Our mock interviews allow you to refine your responses and get feedback.

Job-Related Assessments

Some roles involve extra hurdles – tests, case studies, or technical challenges. We'll make sure you know what to expect and how to handle them.

Job Application Support

We guide you through the process, from knowing where to apply to ensuring your application hits the mark. With us in your corner, you will make real progress toward landing your role.

We back that confidence with a **job guarantee or your money back.**

SUCCESS STORIES

Real success stories from students who've completed the programme and launched their careers.

We could tell you, but our candidates say it best.

Lee Clarke

From: Virtual Copy Editor

To: Video Game Programmer Apprentice at **Ubisoft**

Lee transitioned from editing to coding after joining ITonlinelearning's Coding Career Programme. With no prior experience, he gained the skills and support needed to land a programming apprenticeship at Ubisoft. He praises the programme for its structure, mentorship, and career guidance.

Werner Gomindes

From: Reservations Agent

To: Systems Engineer at **Synetec**

Werner enrolled in ITonlinelearning's Coding Placement Programme, completing certifications in HTML, CSS, Python, AWS Cloud Practitioner, Command Line, GitHub, and JavaScript. With ITonlinelearning's support, including CV redrafting and interview preparation, he applied to 170 positions, leading to multiple interviews. In May 2024, he secured a hybrid Support Engineer role at Synetec, achieving a significant salary increase. Werner values the structured programme and comprehensive support from ITonlinelearning, recommending it for those seeking a career change.

Johnny Lau

From: Care Technology Installer

To: Junior Software Developer

Johnny transitioned from working as a teaching assistant in Hong Kong to becoming a Care Technology Installer in the UK, thanks to ITonlinelearning's Coding Programme. The course gave him practical, hands-on experience, technical skills, and the confidence to thrive in the tech industry. With strong tutor support and real-world projects, Johnny was able to bridge the gap between theory and application—ultimately securing a meaningful role where he uses technology to make a difference.

Excellent

4.8 out of 5 based on 7,000+ reviews on Trustpilot

FULL STACK DEVELOPER CURRICULUM

Our programme is a proven pathway into tech, designed to take you from beginner to job-ready Full Stack Developer with practical front-end, back-end, and cloud development skills.

Your Training Breakdown

This programme takes you from the fundamentals of web development to full stack and cloud-based applications. You'll start by building well-structured web pages, move on to creating interactive front-end applications with JavaScript and React.js, then develop back-end programming and database skills with Python and SQL before learning how to deploy and scale projects using AWS and Microsoft Azure. With hands-on coding challenges and real-world projects, you'll develop the skills to build, manage, and optimise applications from the ground up.

Level 1 – Static Website Development

Your Full Stack Developer journey starts with the foundations of modern web development. You'll learn how to structure responsive web pages using HTML, style them effectively with CSS, and streamline your workflow with Tailwind CSS before progressing into more advanced development concepts.

HTML + Web Essentials

Learn the core building blocks used to create modern, responsive websites and web pages.

CSS

Transform layouts with styling, responsive design techniques, and interactive visual elements.

Tailwind

Speed up your workflow with utility-first CSS used to build clean, responsive user interfaces efficiently.

Level 2 – Front-End Development

Next, you'll move beyond static websites and learn how to build interactive, dynamic web applications. This stage focuses on JavaScript and React.js, two of the most widely used front-end technologies adopted by professional developers to create responsive user experiences.

React . JS

Build modern, scalable web applications using component-based architecture and interactive user interface development.

JavaScript

Take your web development skills further by creating dynamic functionality, interactive features, and responsive user experiences.

Level 3 – Cloud Development

In the final stage, you'll learn how to build, deploy, manage, and scale full stack applications using modern back-end and cloud technologies. You'll develop practical back-end programming skills with Python, work with SQL databases, and gain hands-on experience with AWS and Microsoft Azure to understand how modern applications are managed in cloud-based environments.

Python

Develop back-end programming skills used to build application logic, automate processes, and support full stack development workflows.

SQL

Learn how to structure, manage, and query databases used to power modern web applications and data-driven systems.

AWS

Gain practical experience with cloud technologies used to deploy, manage, and scale modern applications.

Azure

Learn how cloud platforms support application hosting, infrastructure management, and scalable development environments.

YOUR SUPPORT TEAM

Success doesn't happen in isolation.

Throughout the programme, you'll have access to expert tutors, interactive learning tools, and a support network designed to keep you on track

Your **Support** Team

The Learning Phase:

One-to-One Tutor Support

Your tutor is just a message away. Whether you need to arrange a one-to-one call, get additional study material, or ask questions about your course, they're there to help. And with industry experience in Full Stack Development, they can provide insights beyond the curriculum.

Course-Specific Webinars & Tutorials

We know what challenges students face because we've trained thousands of them. That's why we provide a library of tutorial videos and webinars that dive into the finer details of Full Stack Development – giving you extra clarity when you need it.

Personalised Feedback

Learning isn't one-size-fits-all. Your tutor works closely with you to understand your strengths and areas for improvement, tailoring their approach to maximise your growth. Exam prep is thorough, ensuring you're not just familiar with the material but fully prepared to pass.

Resource Library & Peer Network

Beyond structured training, you'll have access to an extensive resource library with additional study materials to support your learning. You'll also join an exclusive online community of fellow students, giving you a space to connect, ask questions, and engage with people on the same journey.
