IT Pro Job Programme

Protect Businesses. Secure Data. Build Your Future.

Qualification:

Gain industry-leading, internationally recognised, UK-accredited CompTIA certifications.

Completion Time

8-10 weeks

If you are studying 2 hours a day

Total access period

12 Months

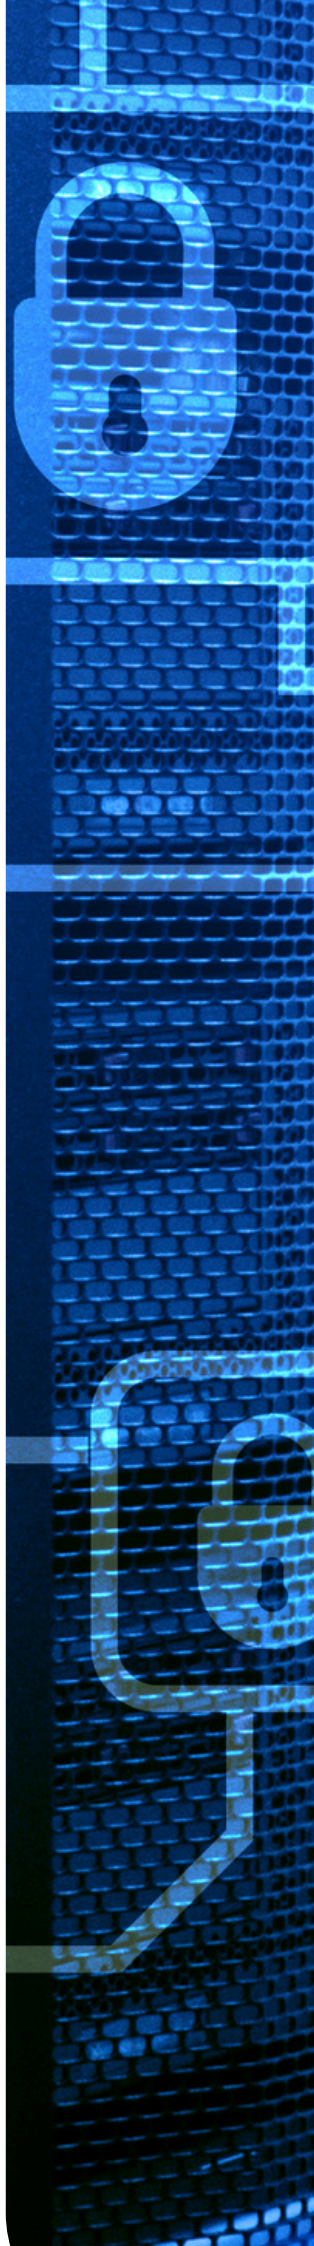

IT is at the centre of how modern businesses operate, and skilled professionals are needed to keep systems running, users supported, and networks connected. Your development should reflect that same level of technical knowledge, problem-solving, and adaptability.

Businesses rely on IT professionals to manage infrastructure, troubleshoot issues, support users, and maintain secure and efficient systems. In this programme, you'll build practical IT skills through industry-recognised CompTIA certifications, hands-on learning, and dedicated recruitment support designed to help you secure your first role in IT.

The ITOL Recruit IT Pro Job Programme is built to help you develop a strong technical foundation with CompTIA A+, Network+, and Security+, while gaining the confidence to work across support, networking, and infrastructure environments.

Follow the process, complete the programme, and land a job – or we'll refund your investment.

Let's get started.

What Do We Provide?

Every part of the programme is designed to prepare you for the demands of an IT Professional role and help you secure employment.

- UK-Accredited Qualifications
- Dedicated Recruitment Support
- Live Labs for Practical Experience
- Training in IT Support, Networking, and Security
- Industry-Leading Certifications
- Qualified Human Mentor & Tutor

Why Choose a Career in IT:

IT professionals are essential to modern businesses, helping organisations manage systems, support users, maintain networks, and keep operations running efficiently. This programme gives you the foundation needed to start and grow a successful career in IT.

- **High Demand** – Businesses across every industry rely on skilled IT professionals to support infrastructure, troubleshoot issues, and manage technology systems.
- **Competitive Salaries** – IT roles offer strong earning potential, with opportunities to progress into specialist and higher-paying technical positions.
- **Diverse Career Paths** – Explore opportunities in IT support, networking, infrastructure, systems administration, and cyber security.
- **Global Opportunities** – IT skills are valuable across sectors including finance, healthcare, education, retail, and government.

Our job guarantee means you're not just training for a role; you're landing one.

How You'll Learn

- **Hands-on training** – Develop your skills by working through real IT scenarios.
- **Real-world application** – Learn how to support systems, manage networks, and work with core IT infrastructure used by modern businesses.
- **Expert Support** – Learn from experienced tutors who break down complex ideas, provide feedback and help you refine your skills.

Our job guarantee means you're not just training for a role; you're landing one.

Your Pathway to Success

IT requires skill, strategy, and practical experience – and so does your career journey. This programme follows a structured process to help you build the right expertise, apply your knowledge in hands-on scenarios, and secure a role in IT.

1

TALK TO A CAREER ADVISOR

Not sure where to start? Our advisors help you explore options and align your training with your career goals.

2

COMPLETE THE TRAINING

Learn the skills employers look for, pass the assessments, and gain hands-on experience in IT.

3

WORK WITH A RECRUITMENT ADVISOR

Get personalised support to refine your CV, optimise your LinkedIn profile, and prepare for interviews.

4

SECURE THE JOB

With tailored career support, you'll be ready to step into your new role in IT.

Where Could This Take You?

A career in IT offers stability, growth, and high earning potential. Here's where you will go:

IT SUPPORT TECHNICIAN

£28K – £35K

Support users, troubleshoot technical issues, install software and hardware, and help businesses keep their systems running smoothly.

NETWORK SUPPORT TECHNICIAN

£35K – £65K

Manage and maintain networks, resolve connectivity issues, and support the infrastructure businesses rely on every day.

IT INFRASTRUCTURE TECHNICIAN

£40K – £70K

Support servers, systems, and IT environments while helping organisations maintain secure, efficient, and reliable operations.

RECRUITMENT

You've built the skills, completed the projects, and earned your qualifications. Now it's time to secure the role.

That's where we come in

Your **Job, Guaranteed** or Your Money Back

We stand by our training. Follow the process, complete the programme, and secure a role, or you get your money back.

Our job guarantee includes:

- Personalised career coaching tailored to your job search.
- An optimised CV and LinkedIn profile to attract employers.
- Comprehensive interview preparation so you feel confident in every opportunity.

The Process

Interview Preparation

We know what hiring managers ask because we've helped thousands of candidates through this process. With tutorial videos, webinars, and expert guidance, you'll be ready for anything they throw at you.

CV & LinkedIn Overhaul

Your CV and LinkedIn profile are your tickets to getting noticed. Our team works with you to sharpen them so they stand out.

Job-Related Assessments

Some roles come with extra hurdles – tests, case studies, or technical challenges. We'll make sure you know what to expect and how to handle them.

Job Application Support

We guide you through the process, from knowing where to apply to ensuring your application hits the mark. With us in your corner, you will make real progress toward landing your role.

We back that confidence with a **job guarantee or your money back.**

SUCCESS STORIES

Real success stories from students who've completed the programme and launched their careers.

We could tell you, but our candidates say it best.

Bobby Mitchell

From: Hospitality Supervisor

To: Cyber Security Analyst at Systal Technology Solutions

After spending years in the hospitality industry, Bobby decided it was time for a career change. He joined ITOL's Cyber Security Job Programme with no prior IT experience and quickly gained the skills and certifications he needed, including CompTIA A+, Network+, Security+, and CySA+. With guidance on interview prep, CV writing, and LinkedIn updates, Bobby landed a role as a Cyber Security Analyst.

Michael Coleman

From: Service Delivery Engineer and Accounts Manager

To: IT Support Manager

Michael enrolled in ITonlinelearning's Cyber Security Career Programme, completing certifications such as CompTIA A+, Network+, Security+, and CySA+. With ITonlinelearning's support—including CV revision and LinkedIn profile updates—he began his job search and, within eight weeks, secured a position as an IT Support Manager. Michael credits the programme's comprehensive training and dedicated support for his successful career transition and recommends upskilling to add value in the IT industry

Nnanyelu Okeke

From: Retail

To: Trainee Network Engineer at Sky

Starting with no IT experience, Nnanyelu joined ITOL's Technician Job Programme to break into tech. He earned his A+ and Network+ certifications and received expert support with job search strategies, interview prep, and confidence building. Within months, he landed a trainee role at Sky and now works on real networking projects. Nnanyelu says ITOL helped him turn ambition into action—and into a future-proof career.

Excellent

4.8 out of 5 based on 7,000+ reviews on Trustpilot

IT PRO CURRICULUM

Our programme is a step-by-step launchpad into IT, guiding you from beginner to job-ready professional with the skills to protect and defend in a high-stakes digital world.

Your Training Breakdown

Begin your IT career by building a strong technical foundation with CompTIA A+. You'll then develop your networking knowledge with CompTIA Network+, learning how to configure, manage, and troubleshoot networks. From there, you'll move into CompTIA Security+, where you'll build essential knowledge in cyber security, risk management, and protecting systems. Our recruitment team will support you throughout, helping you prepare for job opportunities across IT support, networking, and technical roles.

CompTIA A+

A+ is the starting point for a professional career in IT, certifying foundational technical skills in IT and Support. You'll benefit from job-ready CompTIA training and Live Labs, offering hands-on experience to apply and assess your learning.

CompTIA Network+

CompTIA Network+ helps take your IT infrastructure knowledge to the next level, covering troubleshooting, configuring and managing networks.

CompTIA Security+

CompTIA Security+ is a global certification that validates the baseline skills to perform core security functions and pursue an IT security career.

YOUR SUPPORT TEAM

Success doesn't happen in isolation.

Throughout the programme, you'll have access to expert tutors, interactive learning tools, and a support network designed to keep you on track.

Your **Support** Team

The Learning Phase:

One-to-One Tutor Support

Your tutor is just a message away. Whether you need to arrange a one-to-one call, get additional study materials, or ask questions about your course, they're there to help. And with real industry experience in IT, they can provide insights beyond the curriculum.

One-to-One Tutor Support

Learning isn't one-size-fits-all. Your tutor works closely with you to understand your strengths and areas for improvement, tailoring their approach to maximise your growth. Exam prep is thorough, ensuring you're not just familiar with the material but fully prepared to pass.

Guidance From Certified Experts

Learning isn't one-size-fits-all. Your tutor works closely with you to understand your strengths and areas for improvement, tailoring their approach to maximise your growth. Exam prep is thorough, ensuring you're not just familiar with the material but fully prepared to pass.

Resource Library & Peer Network

You'll also join an online community of fellow students, giving you a space to connect, ask questions, and engage with people on the same journey.

Guidance From Certified Experts

Your learning is backed by the expertise of experienced IT professionals who have worked across industries. They don't just teach the material – they guide you through real-world applications, ensuring you're job-ready.
